Selected Unit 3 syllabus content for the Externally set task 2017

This document is an extract from the *English as an Additional Language or Dialect General Course Year 12 syllabus*, featuring all of the content for Unit 3. The content that has been highlighted in the document is the content on which the Externally set task (EST) for 2017 will be based.

All students enrolled in the course are required to complete an EST. The EST is an assessment task which is set by the Authority and distributed to schools for administering to students. The EST will be administered in schools during Term 2, 2017 under standard test conditions. The EST will take 50 minutes.

The EST will be marked by teachers in each school using a marking key provided by the Authority. The EST is included in the assessment table in the syllabus as a separate assessment

Unit 3

Unit description

Unit 3 focuses on investigating how language and culture are interrelated and expressed in a range of contexts. A variety of oral, written and multimodal texts are used to develop understanding of text structures and language features. Students explore the relationship between these structures and features and the context, purpose and audience of texts. The unit will enhance students' confidence in creating texts for different purposes and across all language modes in both real and imagined contexts. It will broaden their understanding of the sociocultural and sociolinguistic elements of SAE and develop skills for work and further study.

The thematic focus for this unit is **attitudes, issues, identity**. Using knowledge and skills from their existing languages and cultures, students learn to use English to explore wider social contexts beyond the personal and immediate community. From their position as cross-cultural learners, they examine issues and different points of view to develop, present and express ideas and opinions in relation to these.

Through the investigation of a range of topics, students explore their relationships with cultures, deepen their understanding of cultural similarities, differences and values and develop their ability to use English. Students apply their SAE skills to examine the ways language is used in relation to these topics to position the reader and viewer.

Learning outcomes

By the end of this unit, students:

- communicate ideas and opinions in a range of contexts
- demonstrate literal and inferential comprehension of information, ideas and language used in texts
- understand and apply social and cultural references from different contexts
- plan and create oral, written and multimodal texts appropriate to purpose and audience.

Suggested contexts

Within the broad area of **attitudes, issues, identity**, teachers may choose one or more of the suggested contexts (this list is not exhaustive):
