

PHYSICAL EDUCATION STUDIES

Practical (performance) examination 2016 SOCCER

Marking Key

Marking keys are an explicit statement about what the examiner expects of candidates when they respond to a question. They are essential to fair assessment because their proper construction underpins reliability and validity.

Time allocated

Warm-up: 30 minutes Skills and Drills: 75 minutes

Materials required

To be provided at the venue

Non-personal equipment required for Soccer – balls, goals, markers

To be provided by the candidate

Shin guards, enclosed shoes or Soccer boots, mouth guard, sun protection

Structure of the examination

The Physical Education Studies examination comprises a written examination worth 70% of the total examination score and a practical (performance) examination worth 30% of the total examination score.

Structure of this practical (performance) examination

Sections and criteria	Marks available	Percentage of total exam
Individual skills		
Skill 1: Dribbling	6	
Skill 2: Short Pass	6	4.5
Skill 3: Control Low Ball	6	15
Skill 4: Shooting	6	
Skill 5: Heading Attack	6	
Conditioned performance	20	15
	Total	30

Instructions to candidates

- 1. You are required to wear clothing and personal playing and safety equipment that is approved for competition by the sport's governing body.
- 2. Clothing must not identify you, your school, club or achievements, and it is requested that you wear black, navy or white shirts for the examination.
- 3. You are required to report to a supervisor to register for the practical examination 30 minutes before your scheduled examination time.
- 4. Once your attendance has been recorded you will be given a coloured, numbered bib to wear for the examination and directed to a supervised warm up area.
- 5. Just prior to the scheduled examination time you will be escorted from the warm up area to the examination area.

Skill Descriptors

Markers will typically assess skill from a holistic view rather than by focusing on a detailed anatomy of its parts. The following points may be useful to guide Physical Education Studies practical (performance) examination markers in what to look for when marking each skill.

What is Motor Skill?

Motor skill may be defined as the execution of a goal directed action with efficiency, speed, power and accuracy. In Physical Education Studies we are looking mainly for efficiency and accuracy in a smooth coordinated movement. Skills should be performed at a rate that is close to 'game pressure'.

Descriptors of skill

In most sport skills, there are three distinct phases i.e. preparation, execution and completion, and a desired movement outcome. Markers will focus on these following four aspects when marking:

1. Preparation Phase

e.g.

- Correct grip on implement
- Positioning (e.g. foot behind fault line, centring in squash, making space in AFL)
- Balanced posture during wind-up (e.g. backswing, counter-movements)

2. Execution Phase

e.g.

- Smooth transition (acceleration) of force from larger muscles to peripheral muscles (coordination the kinetic chain)
- Core body control maintained (e.g. trunk, head position)
- Action in line of movement (movement efficiency)
- Force/power applied at appropriate time
- Position of implement controlled throughout
- Efficient use of energy

3. Completion Phase

e.g.

- After execution of action candidate regains position for next action
- · Correct follow-through in kicking, striking skills

4. Movement outcome

e.a.

• Action results in accurate delivery of ball/shuttle to target position, in time as intended etc. On some occasions this will be incorporated in the completion phase.

Marking

How do we translate these principles to a marking key? As each sport is so different this generic set of descriptors needs to be interpreted in terms of the physical demands as well as skill demands of each sport, its rules and general game play.

Breaking of sport specific rules

A candidate who breaks the rules of the sport, but who otherwise performs at any standard, will have one mark deducted for each rule that is consistently breached.

SECTION ONE - Skills Performance

Skill 1: Dribbling

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Preparation

- Ball is positioned close and central to the body
- Dribbling knee is positioned up and over the ball
- Body is balanced
- Head is positioned over the ball
- Body facing the defender
- Ball is kept central to the body

Execution

- Dribbling foot pushes the ball forward in a controlled manner
- Knee is over the ball as it is touched forward
- Ball is always kept within control-distance of the foot
- Use both inside and outside of the foot to move the ball forward
- Eyes are kept up to assess further play options (Eyes not fixed only on the ball)
- Player simultaneously dribbles and scans the field

Completion/Outcome

Player controls the ball and is able to utilise further options

Mark	Observable key skill components described in C: Preparation, Execution, Completion, and Outcome
6	Always demonstrates the observation points
5	Almost always demonstrates the observation points
4	Demonstrates reasonable skill level more than 50% of the time
3	Demonstrates adequate skill level approximately 50% of the time
2	Demonstrates adequate skill level less than 50% of the time
1	Rarely demonstrates adequate skill level
0	Does not demonstrate minimum skill level

Skill 2: Short pass

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Preparation

- Player standing balanced in anticipation on the balls of the feet (not flat footed)
- The ball is approached in fluid motion, knees slightly bent with body fluent and balanced
- The supporting foot is placed next to and level with the centre of the ball with knee slightly bent for balance
- Supporting foot facing towards the intended target

Execution

- Supporting leg slightly flexed to provide balance
- Head is down and over the ball
- Kicking leg swings forward towards the centre of the ball
- As the foot meets the ball the foot is turned to the outside, parallel to the ground with ankle locked (firm not floppy)
- Instep makes contact with the ball, striking through the centre of the ball
- Timing of the pass the foot 'meets' the ball central to the body not reaching for the ball

Completion/Outcome

- Kicking foot follows through in the direction of the ball
- The body still balanced (not leaning back)
- Ball moves along the ground (not bouncing along the ground or in the air) in a forward rolling direction

Mark	Observable key skill components described in C:
	Preparation, Execution, Completion, and Outcome
6	Always demonstrates the observation points
5	Almost always demonstrates the observation points
4	Demonstrates reasonable skill level more than 50% of the time
3	Demonstrates adequate skill level approximately 50% of the time
2	Demonstrates adequate skill level less than 50% of the time
1	Rarely demonstrates adequate skill level
0	Does not demonstrate minimum skill level

Skill 3: Control low ball

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Preparation

- Body is balanced in anticipation on the balls of the feet
- · Hips and knees are flexed
- Body moved into position behind the path of the approaching ball
- Eyes are kept on the ball

Execution

- Receiving foot is parallel to the ground and slightly raised
- Supporting foot is positioned alongside the ball with knee flexed and arms out to maintain balance
- Head is over the ball
- The centre of the ball is 'cushioned' using the middle of the inside of foot

Completion/Outcome

Ball is in a position to be used effectively after it has been controlled

Mark	Observable key skill components described in C:
	Preparation, Execution, Completion, and Outcome
6	Always demonstrates the observation points
5	Almost always demonstrates the observation points
4	Demonstrates reasonable skill level more than 50% of the time
3	Demonstrates adequate skill level approximately 50% of the time
2	Demonstrates adequate skill level less than 50% of the time
1	Rarely demonstrates adequate skill level
0	Does not demonstrate minimum skill level

Skill 4: Shooting

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Preparation

- Ball is positioned between (or level with) the kicker and the target
- Ball is approached at a slight angle
- Ideally approach is to be no longer than three metres

Execution

- Supporting leg is positioned next to the ball and is slightly flexed to provide balance
- Head is down over the ball
- Knee and body are positioned slightly over the ball
- Arms are out to maintain balance
- Shooting leg swings forward with knee flexed, foot extended, ankle firm
- Contact is made with the top of the foot (laces) moving through the ball

Completion/Outcome

- Shooting foot swings 'through' the ball along with body weight
- Appropriate power is applied to the ball and is consistent with position of goalkeeper
- · Ball hits the intended target

Mark	Observable key skill components described in C:
	Preparation, Execution, Completion, and Outcome
6	Always demonstrates the observation points
5	Almost always demonstrates the observation points
4	Demonstrates reasonable skill level more than 50% of the time
3	Demonstrates adequate skill level approximately 50% of the time
2	Demonstrates adequate skill level less than 50% of the time
1	Rarely demonstrates adequate skill level
0	Does not demonstrate minimum skill level

Skill 5: Heading attack

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Preparation

- Balance in anticipation on the balls of feet
- Hips and knees are flexed
- Shoulders are square to the path of the ball
- · Eyes track the ball
- · Torso maintains upright position, not leaning forward or backwards

Execution

- Moves towards the ball (If necessary)
- Knees extend as the ball approaches to initiate jump
- Arms lift up to assist in getting height, generating power and balance
- · Body arches backward from the torso
- Head reaches upward and toward the ball (neck extended) and in the direction where the ball is intended to travel
- Timing of the header the head 'meets' the approaching ball during the forward momentum before the head and torso becomes linear
- Ball contacts on the middle section of the forehead

Completion/Outcome

- Fluency the preparation and execution completed in sequence
- Upper body continues in direction of headed ball
- Flight and direction successfully sends ball into target zone

Mark	Observable key skill components described in C: Preparation, Execution, Completion, and Outcome
6	Always demonstrates the observation points
5	Almost always demonstrates the observation points
4	Demonstrates reasonable skill level more than 50% of the time
3	Demonstrates adequate skill level approximately 50% of the time
2	Demonstrates adequate skill level less than 50% of the time
1	Rarely demonstrates adequate skill level
0	Does not demonstrate minimum skill level

SECTION TWO - Conditioned performance

A. SKILL – demonstration of skills in competitive situations will be assessed taking into account the combination of four elements of an action i.e. consistency, precision, fluency and control.

B. CONTEXT – game pressure, pace, skill and intensity of opponent and team mates, playing area, environmental conditions etc. may affect performance and should be taken into account when marking.

C. KEY SKILL COMPONENTS

Tactical problems	OFFENSE	DEFENCE
Use of space	 Runs to create options Creates and maintains space Blocks opposition to allow team mate to attack 	 Reads play and moves to man or zone defence Blocks attacking players Is ready to force turnover
Positioning	 Anticipates ball movement and moves to effective attacking position Blocks defensive players Creates and maintains space Creates attacking goal shooting options 	 Anticipates ball movement and moves to effective defensive position Blocks offensive players Moves quickly in turnovers
Execution	Uses ball skills effectivelyFollows up to be involved in play	 Uses ball skills effectively under pressure Follows up after passing or blocking
Decision making	 Creative use of skill Shows evidence of strategic thinking in attacking moves 	Creative use of skillShows evidence of strategic thinking in blocking attack
Mark	10	10
Total		20

Mark	Observable key skill components described in C:	
	Use of space, Positioning, Execution, and Decision-making	
9 – 10	Always demonstrates skills at an exceptional level under pressure	
7 – 8	Consistently demonstrates skills under pressure	
5 – 6	Frequently demonstrates appropriate skills, but not as intense as (7–8)	
3 – 4	Demonstrates adequate skill level	
1 – 2	Demonstrates low level of skill	
0	Does not demonstrate minimum skill level
