Where can your VET qualification take you?

Post-Secondary
Pathways

Engineering
Industry

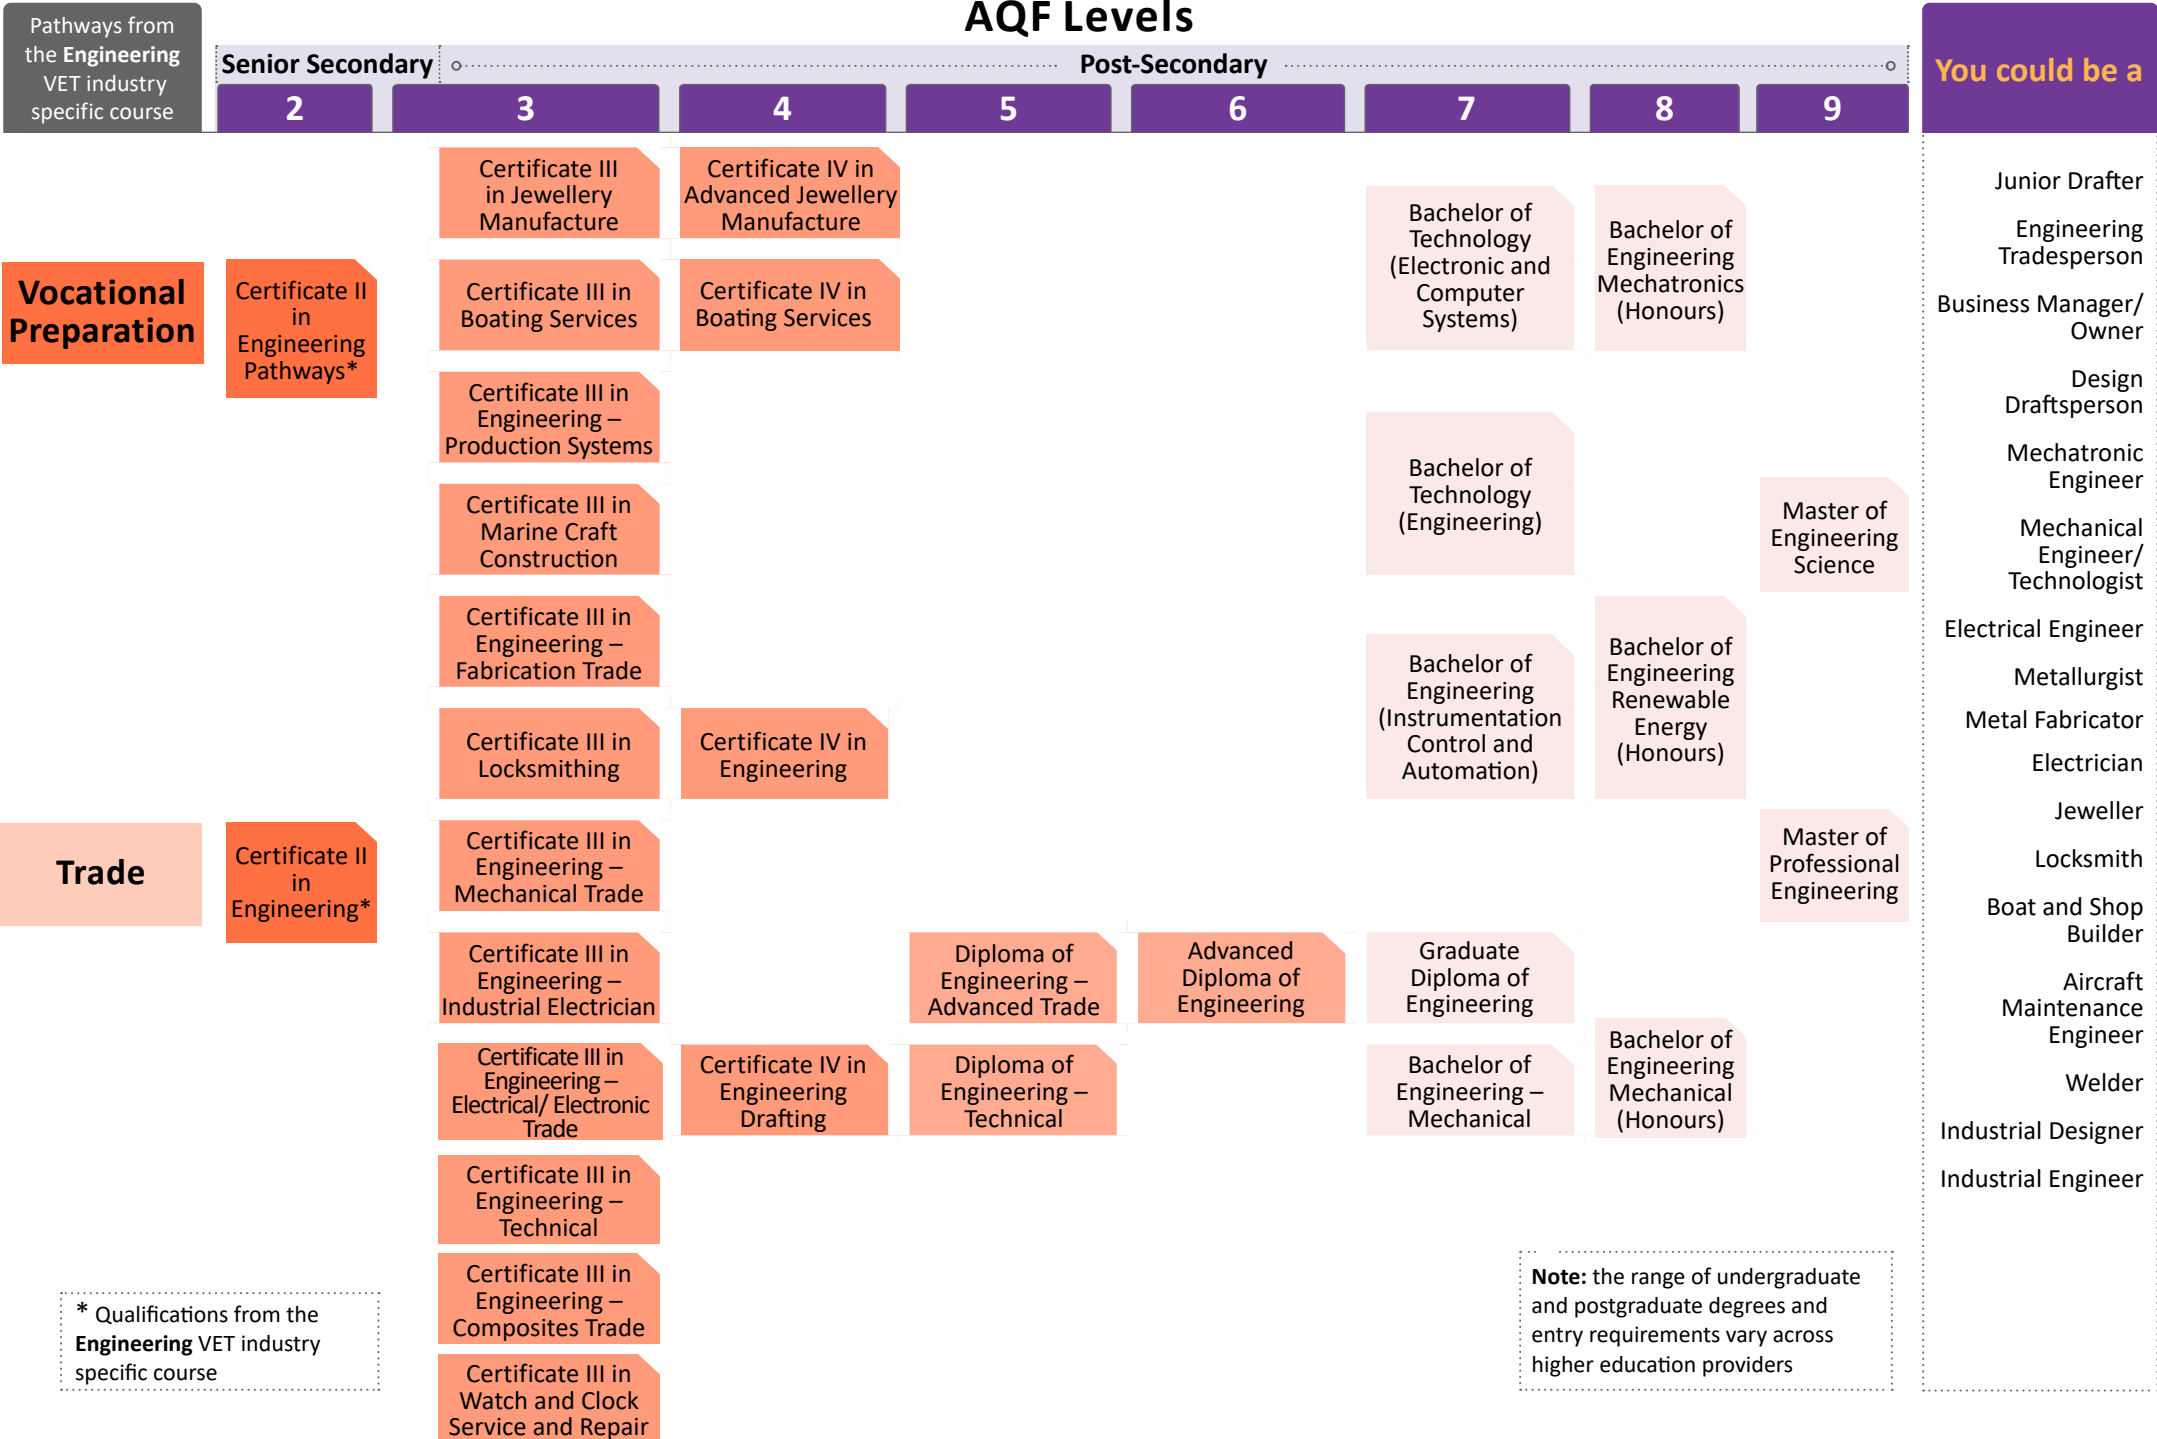

The Engineering industry in Australia is growing as a result of technology and innovation advances within the sector. There are many training pathways available from an Engineering VET industry specific course which lead to a range of exciting career options.

This document is a snapshot of pathway options if you are interested in a career in engineering.

Note: Certificate I qualifications are not included in the pathways because the outcomes are deemed to be pre-vocational.

AQF Levels

* Qualifications from the Engineering VET industry specific course

Note: the range of undergraduate and postgraduate degrees and entry requirements vary across higher education providers

Note: the post-secondary pathways represented here are only a sample of the opportunities for further and higher education and training available. This support document provides examples of post-secondary pathways available to students undertaking qualifications from the Engineering VET industry specific course. Further information relating to these qualifications can be found using the Online Resources links on the following page.
