Sample assessment outline

Applied Information Technology – General Year 11

Unit 1 and Unit 2

Assessment type (from syllabus)	Assessment type weighting (from syllabus)	Assessment task weighting	When/start and submission date	Assessment task
Project	70%	10%	Semester 1 Week 9–11	Task 2: A series of mini-projects, requiring the design of documents and the use of a range of software for personal use, including word processing software and spreadsheet software. Each mini-project requires the creation and/or modification of a digital product. Projects may also require the identification and explanation of the elements of design, the principles of design and compositional rules in existing digital products.
		25%	Semester 1 Week 14–16	Task 5: The design and creation of a flyer/handout and a budget spreadsheet for a sporting event. The digital products developed require the use of a design strategy, the elements of design and the principles of design and compositional rules.
		10%	Semester 2 Week 7–10	Task 9: A series of mini-projects, requiring the use of a range of software for personal use, including presentation software, image manipulation software and audio software. Each mini-project requires the creation and/or modification of a digital product.
		25%	Semester 2 Week 13–16	Task 10: The development of a range of digital products for another course. This task requires the use of word processing software, spreadsheet software, image manipulation software and audio software. The digital products developed require the use of a design strategy, the design elements and the principles of design and compositional rules.
Short answer	20%	5%	Semester 1 Week 8	Task 3: This topic test is a series of short answer questions on Hardware concepts.
		5%	Semester 1 Week 11	Task 4: This topic test comprises multiple-choice and short answer questions on Spreadsheet concepts.
		5%	Semester 2 Week 2	Task 6: This topic test is a series of short answer questions on Managing data concepts.
		5%	Semester 2 Week 4	Task 7: This topic test comprises multiple-choice and short answer questions on Impacts of technology concepts.
Extended answer	10%	5%	Semester 1 Week 2	Task 1: This task is an extended answer task based upon Design concepts.
		5%	Semester 2 Week 6	Task 8: This task is an extended answer task based upon Network concepts.
Total	100%	100%
