\*These VET industry specific course qualifications require more ADWPL than other qualifications at the same level. This was a request from the Industry Training Council (ITC).

†Qualifications which have significant overlap of units of competency have been given the same course unit code to avoid dual credit for the same content.

‡Please refer to the latest VET qualifications register for secondary students for details on relevant delivery options.

^ As stipulated in the Training Package, 160 hours of mandatory work placement is a requirement of this qualification.

≠Number of UoC required may differ depending on registered training organisation (RTO) schedule as qualification packaging rules stipulate unit/weighting point requirements.

# These qualifications will not be available for delivery once the transition period ends.
