

Music General Course Year 12

Selected Unit 3 syllabus content for the

Externally set task 2019

This document is an extract from the *Music General Course Year 12 syllabus*, featuring all of the content for Unit 3. The content that has been highlighted in the document is the content on which the Externally set task (EST) for 2019 will be based.

All students enrolled in the course are required to complete an EST. The EST is an assessment task which is set by the Authority and distributed to schools for administering to students. The EST will be administered in schools during Term 2, 2019 under standard test conditions. The EST will take 50 minutes.

The EST will be marked by teachers in each school using a marking key provided by the Authority. The EST is included in the assessment table in the syllabus as a separate assessment type with a weighting of 15% for the pair of units.

Unit 3

Unit description

In this unit, students develop their skills, knowledge and understanding to listen to, compose, perform and analyse music. They develop aural and music literacy skills and learn how the elements of music can be applied when performing, composing and responding to music. Students learn about how music is created and performed, analysing musical works and exploring how social, cultural and historical factors shape music in the specific context selected for study.

Students develop skills, confidence and stylistic awareness to engage in music making as performers and audience members both individually and collaboratively.

Suggested contexts

The selected context becomes the vehicle or framework through which the unit content is delivered. Suggested contexts could include Western Art Music, Jazz, Contemporary Music, Music Theatre, Music for Film and Television, World and Indigenous Musics or Music Technology.

Practical component

Students can select **one** of three options to complete the practical component:

- Performance
- Composition portfolio
- Production/Practical project.

Performance

Performance assessment can be demonstrated as a soloist and/or as part of an ensemble and assessment can be completed by the classroom teacher, instrumental teacher and/or ensemble director. Students should be encouraged to participate in relevant ensembles and given regular performance opportunities to build confidence and prepare for performance assessments.

The Practical component is worth 40% of the overall school-based assessment.

- **Prepared repertoire (20%)**
 - students will perform with technical skills and stylistic interpretation appropriate to the selected repertoire.

- **Other performance activities (20%)**

The remaining 20% is to be distributed between at least two of the following other performance activities:

- **Technical work**
 - skills and techniques appropriate to the chosen instrument/voice
- **Sight-reading**
 - performing excerpts appropriate to the chosen instrument/voice
- **Improvisation**
 - improvisation skills on chosen instrument
- **Ensemble**
 - musical contribution
 - rehearsal conventions
- **Playing/singing by ear**
 - performing a musical piece which has been learnt from a recording or performance
 - imitating musical passages played by another musician
- **Playing/singing by memory**
 - performing learnt repertoire from memory.

Composition portfolio

Composition students can either be tutored by the classroom teacher, or an external tutor/supervisor. A timetable, program of work and assessment outline is to be agreed to by the classroom teacher, composition tutor/supervisor and student to ensure appropriate standards and assessment requirements are met.

A composition portfolio should contain the following:

- a minimum of two contrasting pieces with a combined minimum performance time of 10 minutes
- pieces of varying length and style, written for different instruments and instrumental combinations
- scores and/or recordings of all works as appropriate
- an overview of each composition outlining the inspiration and influences behind them and an explanation of the generation and development of ideas. Any non-original material should be acknowledged.

Production/Practical project

The production/practical project must be practically based. This could involve:

- composing/arranging based on research
- a performance activity based on research
- a practical activity, such as a musical theatre production, or project involving sound production and recording techniques.

If the project is to contain a written component, it cannot be purely research based and should include the following:

- a number of essay type responses or single documentation of the topic selected
- analysis of a work or a selected number of works in the style of the topic/context selected for study. The analysis should be detailed and reflect an understanding of the information documented in the written section
- at least one composition/arrangement in the style/context selected for study or a performance based activity which reflects the research and written section of the project.
-
