Background about the Eight-Task Model

The Board of the School Curriculum and Standards Authority (the Authority) has introduced an Eight-Task (maximum) Model for all courses as part of the Authority's syllabus review process. The intent of the Eight-Task (maximum) Model is to ensure that the Authority's assessment requirements do not generate workloads and/or stress that, under fair and reasonable circumstances, would unduly diminish the performance of students.

The Eight-Task (maximum) Model is not mandated until a course has a syllabus review, and as English hasn't undergone a review and isn't scheduled for one yet, the eight-task maximum is not compulsory in English courses.

Although the English and Literature courses have not yet had syllabus reviews, the Eight-Task Models not only provide exemplars for future change but can also be used for present courses to aid student wellbeing. The intention is to improve the balance between learning and assessment. Therefore, the Eight-Task Models for English include a reduction (to eight) in the maximum number of summative assessments required and an increased emphasis on formative activities. The formative activities and the texts listed in these models are suggestions only.

Advice on use of texts in educational settings

Teachers use their professional judgement when selecting texts to use in their teaching and learning programs. They base their decisions on the requirements of the Western Australian curriculum, student data, the needs of their students and proposed learning intentions and success criteria.

When using texts in the classroom, teachers are also required to:

- conform with relevant legal requirements and Department policies
- address duty of care responsibilities
- meet copyright requirements
- adhere to the requirements of classification categories.

Parent or guardian permission should be sought when showing a publication, film, video or computer game that has a PG or M classification to students under 15 years of age. Texts classified MA 15+ may not be shown to any students without parental consent, and allowances must be made in case of withdrawal. For further information, see the Department of Education policy on Use of Texts in Educational Settings at <https://www.education.wa.edu.au/web/policies/-/use-of-texts-in-educational-settings>. Schools may develop proformas for advising parents or guardians and/or seeking permission for their child to view or use a particular text, or texts, with a specific classification category.

A note on the column 'Formative activities, resources, texts': this column is not required by the Authority. It has been included to support educators who are first engaging with the Eight-Task Model construct.
