

## Interstate Language oral examination

### Personal Investigation – Interview Sheet

The Interstate Language examinations listed below require candidates to develop familiarity with the content of their Personal Investigation, so they are able to provide a brief written summary and participate in an oral interview. The interview is between the marker and candidate. The candidate will be assessed on their ability to:

- reflect on ideas
- apply research findings from the texts studied
- present a point of view
- communicate using appropriate intonation, grammar, language structures, vocabulary and language features, such as intonation to enhance communication.

To assist the marker in directing the interview, provide a brief summary of your Personal Investigation in the space provided below. This sheet, together with your *Personalised Practical Examination Timetable* needs to be taken by you to your scheduled examination.

Please scan and email the completed form to [exams@scsa.wa.edu.au](mailto:exams@scsa.wa.edu.au) at the School Curriculum and Standards Authority by **4.00 pm Friday, 23 August 2024**.
