Media Production and Analysis ATAR course Practical (production) examination

This document provides general advice to teachers, candidates and parents about the Media Production and Analysis ATAR course Practical (production) examination.

Where the Year 12 ATAR course has both written and practical examinations, students are required to sit for both of these examinations. Students who do not sit an ATAR course examination and do not have an approved sickness/misadventure application for that course will not have the grades for the pair of units completed in that year contributed to the calculation of the Western Australian Certificate of Education (WACE).

Schools are required to submit their candidates' practical (production) examination submissions to the designated venue between **8.30 am** and **4.00 pm** on **Tuesday, 21 September 2021**.

Delivery instructions for the submissions will be sent to schools during Term 3. Non-school candidates will be notified directly by mail.

For the Media Production and Analysis ATAR course examination, the weightings are:

- Written examination paper 50%
- Practical (production) examination 50%

1. Reporting achievement

Teachers are responsible for ensuring the practical (portfolio) examination requirements are met and making sure candidates are adequately prepared. Teachers must ensure they are using the current syllabus. Any further advice on matters related to the syllabus or assessment will be published in the [11to12 Circular \(https://www.scsa.wa.edu.au/publications/circular-ecircular/11to12-circulars\)](https://www.scsa.wa.edu.au/publications/circular-ecircular/11to12-circulars) on the School Curriculum and Standards Authority (the Authority) website.

Teachers should also refer to the ATAR course examination information published in Section 6 of the [WACE Manual \(https://www.scsa.wa.edu.au/publications/wace-manual\)](https://www.scsa.wa.edu.au/publications/wace-manual) on the Authority website.

For all ATAR courses with a practical examination, for the pair of units, schools are required to submit to the Authority a:

- course mark out of 100 (weighted for each component)
- mark out of 100 for the written component
- mark out of 100 for the practical component
- grade for the completed pair of units.

2. Forms

The following forms will be used for the practical (production) examination submission and have been provided in this document as sample appendices only:

- *Declaration of authenticity* (Appendix 1)*
- *Production submission cover sheet* (Appendix 2)*
- *Predicted scores data entry form* (Appendix 3)
- *Collaborative form* (Appendix 4)*.

*Copies of these forms are available for download from the course page on the Authority website.

3. Provisions for sickness/misadventure

Consideration may be given to candidates (except non-school candidates) who believe their practical (production) examination submission may have been affected by an unexpected sickness, or unforeseen event beyond their control, close to or during the examination. Such candidates may apply for sickness/misadventure consideration. Candidates may make an application for sickness/misadventure by **4.00 pm Tuesday, 23 November 2021** using the form available in schools or from the [Applications and Order Forms page \(https://www.scsa.wa.edu.au/forms/forms\)](https://www.scsa.wa.edu.au/forms/forms) on the Authority website.

4. Late submissions

Late practical (production) examination submissions cannot be accepted. Candidates who do not submit a production and do not have an approved sickness/misadventure claim will not receive a mark for the course and it will not contribute to any of the WACE requirements.

5. Principles of external assessment

The marking process preserves the anonymity of the candidate and the candidate's school. This requires that candidates and their work are identified only by their Western Australian student number (WASN).

5.1 Authenticity of the candidate's work

The authenticity of the candidate's production work must be guaranteed. It is essential that:

- the main development of work takes place in school time
- work completed away from school is regularly monitored by the teacher
- each candidate signs a *Declaration of authenticity*, (a legal document), witnessed by the supervising teacher and the Principal to endorse the originality/authenticity of the submitted practical (production)
- a copy of the signed *Declaration of authenticity* is kept by the teacher on record at the school
- the primary and secondary production roles are identified by the candidate and the supporting documentation clearly identifies the individual candidate's contribution to the production

- no other person work directly on any part of the candidate's practical (production) examination submission, for example, an outside agency (such as a hired 'team') other than those acknowledged on the *Production submission cover sheet*.
- this work is not submitted by the candidate for any other ATAR course
- only materials received by the Authority by the specified time on the due date are permitted to be presented to the markers
- the teacher/supervisor has a significant role in monitoring candidate progress and in providing ongoing feedback and assessment throughout the process.

Teachers should monitor the candidate's work from the beginning to ensure that there is no plagiarism in the work that is to be submitted for marking. If the teacher has been unsuccessful in working with the candidate to avoid plagiarism while monitoring the process of work, then the teacher **must** sign the *Declaration of authenticity* and attach a note to this effect to the declaration at submission time.

Non-school candidates are to complete the *Declaration of authenticity* in the presence of an authorised witness. A list of authorised witnesses can be found on the [Authorised Witnesses for Statutory Declarations page \(https://www.wa.gov.au/government/publications/authorised-witnesses-statutory-declarations\)](https://www.wa.gov.au/government/publications/authorised-witnesses-statutory-declarations) on the WA.gov.au website.

5.2 Applying a consistent standard

Markers apply a consistent standard to assess the candidate's work. This requires:

- the marking key for the examination
- attendance at a marker training meeting prior to the commencement of marking
- trial marking of work to ensure a common understanding of the marking key
- the practical (production) examination submission be marked independently by at least two markers
- that the marks will be reconciled
- that practical (production) examination submissions, which are a collaboration between two candidates fulfilling the primary and secondary production roles, will be marked independently by the same two markers
- that the Chief Marker ensures consistency throughout by monitoring the marking process and reconciling significant differences where necessary
- that if the Chief Marker considers that the practical (production) examination submitted is not the candidate's own work completed through the duration of the units being examined, the matter is referred to the Breach of Examination Rules Committee
- that each practical (production) examination submission will be marked by specialists in the five media types: audiovisual, digital, radio, print and photography
- that each practical (production) examination submission must not incorporate marks or teacher comments
- that exemplar materials are selected by the Chief Marker and used to exemplify the standards
- that markers do **not** adjust marks according to alleged plagiarism
- that markers assess the candidates' work in light of the marking key.

6. Criteria for marking

The Chief Marker sets the standards based strictly on the criteria set down in the practical (production) examination marking key.

A numerical scale is used to assess the candidate's practical (production) examination submission in terms of:

- conventions for selected media type
- codes for selected media type
- primary role
- secondary role(s).

The criterion remain consistent for all five media types as defined in the Production submission; however, the criteria used within the shelves is specific for each media type.

7. Plagiarism, appropriation and attribution

Plagiarism means:

- submitting, as one's own work, work that another person has completed
- downloading work, graphics or other material from the internet and presenting it as one's own without acknowledgement
- submitting work to which another person such as a parent, teacher or professional expert has contributed substantially. While the practice of having others significantly assist in the preparation of submitted work may be a form of plagiarism, it may also be a form of fraud when it involves significant and/or improper third party assistance.

Candidates may use appropriation provided that this process is explained clearly in their *Practical (production) statement* and that they have appropriately referenced and acknowledged the source on the *Production submission cover sheet* including the URL where necessary.

Candidates whose work uses appropriated or reworked images must attribute all borrowed ideas and images. The name of the work and producer must be included on the *Production submission cover sheet*, including any original work of their own.

Appropriation means:

To 'appropriate' is to take possession of something. Appropriation artists deliberately copy images to take possession of them in their art and re-present the significance of the image or images to achieve a new level of meaning and innuendo, including irony.

These artists are not stealing or plagiarising. They are not passing off the appropriated images as their very own. The appropriation artist 'recontextualises' (puts into a new context) these particular images in order to create a whole new work, independent of the original source.

Appropriation artists hope the viewer immediately recognises the images they copy, and they depend on the viewer's ability to bring all of his/her original associations with the image to the artist's new context in order to enhance the meaning of the work. Irrespective of the work, this

deliberate borrowing of an image for this new context helps the artist comment on the image's/images' original meaning and the viewer's association with the original image/s or the real thing.

[By kind permission Beth S. Gersh-Nešić, Ph.D., Director, New York Arts Exchange]

Attribution means:

Attribution can be defined as something, such as a quality or characteristic, that is related to a particular possessor; an attribute; the act of attributing, especially the act of establishing a particular person as the creator of a work of art.

[© 2011 Houghton Mifflin Harcourt Publishing Company. Adapted and reproduced by permission from The American Heritage dictionary of the English language (5th ed.)]

The Authority has a specific process for dealing with alleged plagiarism in an examination. See Section 6 of the [WACE Manual \(https://www.scsa.wa.edu.au/publications/wace-manual\)](https://www.scsa.wa.edu.au/publications/wace-manual) on the Authority website.

8. Breach of examination rules

A breach of examination rules referral will be issued if the practical (production) examination submitted by the candidate:

- is not in accordance with the signed *Declaration of authenticity*
- incorporates marks or teacher comments
- does not comply with media types requirements listed in Section 10.3 – Individual submission requirements
- identifies the candidate's name, school or teacher
- is plagiarised
- contains material which is deemed inappropriate (such as explicit violence or drug use, images of self-harm or material containing sexual references that are not within the context of a Year 12 classroom and public examination process).
- the absence of a signed *Declaration of authenticity* at submission time will also result in a breach of examination rules referral

A breach of one of these rules can result in cancellation of a part or all of the practical raw examination mark.

An alleged breach of examination rules will be referred to the Breach of Examination Rules Committee. Further information related to examination breaches can be found on the [Rules of conduct for Year 12 ATAR course examinations page \(https://senior-secondary.scsa.wa.edu.au/assessment/examinations/rules-of-conduct-for-atar-course-examinations\)](https://senior-secondary.scsa.wa.edu.au/assessment/examinations/rules-of-conduct-for-atar-course-examinations) on the Authority website and in Part II of the *Year 12 Information Handbook*, published in July.

9. Submission requirements

Candidates must submit their practical (production) examination submission through the school in an A4 clear plastic button document wallet. The label must be placed on the top right hand corner of the flap of the wallet.

Good quality USBs must be used for the submission of the practical (production) examination submissions. The candidate or teacher **must** compress the size of the file if it is too large to ensure ease of loading for the markers. The candidate **must** ensure that the production is able to be opened using VLC Media Player. It is recommended that the file should not exceed 1.5 GB.

All USBs must be formatted as 'exFAT' (Extended File Allocation Table). The USB must be formatted first before loading the practical examination submission. Ensuring the USB is formatted as 'exFAT' will assist the marking process if there is a problem with the USB by locating the submission if it becomes fragmented. More information may be obtained from the website, [How To Geek](http://www.howtogeek.com/235596/whats-the-difference-between-fat32-exfat-and-ntfs/) (<http://www.howtogeek.com/235596/whats-the-difference-between-fat32-exfat-and-ntfs/>).

The WASN must appear on each practical (production) examination submission item (e.g. header/footer). Identification labels with the WASN will be provided by the Authority for attachment to the practical (production) examination submission USB and the flap of the clear plastic button document wallet. It is the candidate's responsibility to ensure that each item submitted is labelled securely with their WASN.

All candidates must label the following items using their WASN:

- the header of the Practical (production) statement
- the BD-R, DVD or USB (including the 'backup' copy) which contains the practical (production) submission
- the file/splash page/title screen
- the USB using a permanent felt-tipped pen if the labels are too large to use or stick the label onto card and attach the card to the USB using string
- the back of each printed image (if choosing to submit in printed form) for photography submissions
- the back of each page (if choosing to submit in printed form) for print submissions.

A candidate's name, names of persons associated with the candidate's school and the school name must not appear on any item. The work must not contain evidence of previous marking.

As direct use of material or copying of another person's work without proper acknowledgement is not permitted, candidates must acknowledge in full, all third party material on the *Production submission cover sheet*. Third party materials obtained from the internet must be fully referenced including URLs.

A candidate's practical (production) submission **must** include:

- one production sample (and another sample marked as 'backup' if wanted)
- a completed *Production submission cover sheet*
- a printed copy of the Practical (production) statement.

10. Production submission

The production submission is an extended production project in which candidates explore ideas and demonstrate control and management of the production process. Candidates are expected to demonstrate an understanding of the conventions of selected media types, the codes of selected types and competence in the use of technologies, skills and processes within the production submission.

The production submission must be in one of the following media types:

- **Audiovisual production:** one completed production that can be viewed in no more than 5 minutes. The candidate is required to nominate a primary and secondary production role(s), which will be assessed within the production and supported by the practical production statement. The production can include, but is not restricted to, film, television or animation. Productions to be submitted on BD-R, DVD or USB. File formats must be capable of being played in [VLC Media Player \(www.videolan.org\)](http://www.videolan.org).
- **Digital production:** one completed production that can be viewed in no more than 5 minutes. The candidate is required to nominate a primary and secondary production role, which will be assessed within the production and supported by the practical production statement. The production can include, but is not restricted to, media such as a computer game or website. Productions can be submitted on DVD, CD or USB and able to be played on a web browser.
- **Photography production:** one completed production of no more than 10 photographs (with or without text and/or captions). The candidate is required to nominate a primary and secondary production role which will be assessed within the production and supported by the practical production statement. The production can include, but is not restricted to, genres, such as photojournalism, documentary photography or photography as art. Photographs can be submitted on DVD, CD or USB, or mounted on light card to ensure transportability. The card must not exceed A3 in size.
- **Print production:** one completed production of no more than 12 single sided, or 6 double sided pages. The candidate is required to nominate a primary and secondary production role, which will be assessed within the production and supported by the practical production statement. The production can include pages or pieces from media, such as newspapers, magazines, cartoons, posters or advertisements. Print productions can be submitted on DVD, CD or USB or printed. The pages must not exceed A3 in size if printed.
- **Radio production:** one completed production that can be heard in no more than 5 minutes. Candidates are required to nominate a primary and secondary production role(s), which will be assessed within the production and supported by the practical production statement. The production can include, but is not restricted to, genres such as documentary, current affairs, news, sports program, drama or talk-back. Productions can be submitted on DVD, CD or USB. File formats must be capable of being played in [VLC Media Player \(www.videolan.org\)](http://www.videolan.org).

It is the teacher's responsibility to ensure that the USB used is formatted correctly as an 'exFAT' format and that the practical (production) examination submission is rendered in a format which is compatible with the VLC program for audiovisual and radio productions. Details of specific formats can be found on the [VLC website \(https://www.videolan.org\)](https://www.videolan.org). All USB submissions must be checked

for viruses before submitting and should not contain any other material except the production. It is recommended that the file size does not exceed 1.5 GB if submitted on USB to ensure ease of opening by markers during the marking process. The *Practical (production) statement* must be submitted as a printed copy and not submitted electronically on the BD-R, DVD or USB.

Note: candidates are encouraged to provide a second backup USB with a copy of their production. If this option is chosen then the second USB **must** be clearly labelled 'backup copy'. This backup copy will only be accessed should the original be faulty.

10.1 Production submission cover sheet

The *Production submission cover sheet* requires the candidate to specify:

- their WASN
- the production title
- media type and the primary and secondary role/s
- for collaborative submissions, the WASN of the other candidate
- acknowledgements of third party material including URLs if the materials are sourced from the internet.

The *Production submission cover sheet* should be stapled to the front of the *Practical (production) statement*.

10.2 The Practical (production) statement

The candidate must submit a printed page of documentation which **must**:

- be one single-sided A4 page
- be 11 point Arial font
- have margins of 1.52 cm (top and bottom) and 2.29 cm (left and right).

Note: non-compliance of the above specifications, such as extended margins and smaller font, may be referred to the Breach of Examination Rules Committee. The *Practical (production) statement* must be legible and easy for markers to read.

The following areas must be discussed within the statement:

- a rationale outlining the intent of the production, acknowledging influences if applicable
- an explanation of how production skills were used throughout the production, including the application of the primary and secondary roles.

10.3 Individual submission requirements

All submissions are **individual**. Where candidates collaborate on an audiovisual or radio production, they must clearly nominate their primary production role and ensure all written documentation is **individually** produced. Any material which is generated between two candidates must include the candidate's notes or annotations identifying their **individual** involvement in its development. If the submission is **collaborative**, each candidate **must** submit the **one** page *Practical (production)*

statement plus a **single** practical (production) examination submission which must be enclosed in an A4 clear plastic button document wallet.

For audiovisual and radio productions, candidates must choose which primary role they are to be assessed on:

- **Audiovisual:** cinematographer **or** editor
- **Radio:** content producer **or** audio engineer.

In collaborative submissions, both candidates may **not** choose the same primary role and both candidates may **not** choose the same secondary role.

Note: where the candidate has **not** collaborated on an audiovisual or radio practical submission, they are therefore an **individual submission** and **must** select **one** primary role for assessment.

For digital, print and photography productions, candidates may **not** collaborate on the submission and **must** nominate which primary role they will be assessed on:

- **Digital:** content producer **or** visual designer
- **Print:** content producer **or** visual designer
- **Photography:** photographer **or** image editor.

Secondary role/s are roles which are also part of the production process; however, they support the primary role. In a **collaborative** submission, a candidate may choose to be assessed on **one** or **multiple** secondary roles. Secondary roles may be:

- director
- script writer
- news producer
- advertising/promo coordinator
- prop/costume, set/studio designer
- photographic journalist
- digital artist, or
- a role identified by the candidate which they have fulfilled within the production but may not include acting.

In a **non-collaborative** audiovisual or radio practical submission, after selecting their primary role, the candidate may select the alternative primary role as their secondary role. For example, if the candidate in audiovisual nominates cinematographer as the primary role, they may select editor as the secondary role. When deciding which roles are to be nominated as primary and secondary, candidates must be aware that the primary role is more heavily weighted than the secondary role/s and this should inform their choice.

For digital, print and photography submissions, the secondary role defaults to the primary role **not** selected (e.g. primary role is visual designer, secondary role is content producer).

A candidate's work may appear in more than one production submission. The candidate will then be required to choose which production is to be used for their practical examination. For example, if a

candidate has collaborated on two different productions, they must nominate which production will be used for examination. They do not put their details on any other submission other than the one they have nominated for examination. Candidates who are not using the production for examination should **not** be listed on the *Production submission cover sheet*.

Non-school candidates can only submit as an individual. They will receive instructions through the mail to their home address.

10.4 The Practical (production) statement

The candidate must submit **one** A4 single-sided Practical (production) statement. The Practical (production) statement should demonstrate the candidate's understanding and application of the production process, focusing on the following points:

- providing a rationale outlining the intent of the production, acknowledging influences if applicable
- an explanation of how production skills were used throughout the production, including the application of the primary and secondary roles.

11. Practical (production) media type submission confirmation

All submissions will automatically default to audiovisual. Teachers are reminded to check the media type submission in the online SIRS report EXM096. The report will be available for downloading from SIRS from **Friday, 6 August 2021**. This report must be downloaded, signed and emailed to Mark.Leigh@scsa.wa.edu.au confirming that all is correct or with the necessary changes to media type made on the report if applicable. The EXM096 report must be received by the Authority by **Friday, 20 August 2021**.

12. Collaborative form

The *Collaborative form* must only be completed if there are collaborative submissions. Individual submissions must **not** be included on this form. The last date for the *Collaborative form* for changes from individual to collaborative submission to be received by the Authority, is **Friday, 20 August 2021**.

13. Predicted marks

At the time of submitting the productions, schools are required to submit a predicted mark out of 100 for the practical (production) examination submission. If there is a large difference between the predicted mark and the examination mark, the practical (production) examination submission will be reviewed by the Chief Marker. This process assists in ensuring the integrity of the practical (production) examination submission marks.

The predicted mark is the school's mark assigned to the practical (production) examination submission only. The teacher will provide the predicted school mark on the *Predicted scores data entry form*.

14. Procedures for submission

Teachers are encouraged to assist candidates in the refinement of their choices for the submission; however, it is the candidate's responsibility to select the practical (production) submission for examination.

The production must not be offensive or have objectionable content to the audience (i.e. the markers). While it is understood that a practical (production) examination submission may challenge established views, it is important to consider and take into account the values of the audience and the accepted standards of the wider community in general and within a Year 12 context. The practical (production) submission must **not** contain material which is deemed inappropriate (such as explicit violence or drug use, images of self-harm or material containing sexual references) that are not within the context of the Year 12 classroom and public examination process. It is recommended that a mature classification of 'M' be applied to practical (production) examination submissions. Refer to the [Australian classification website \(http://www.classification.gov.au/pages/home.aspx\)](http://www.classification.gov.au/pages/home.aspx).

Submissions which do not comply with the requirements will be referred to the Breach of Examination Rules Committee.

Third party materials should be thoughtfully used within the practical (production) examination submission and should not be excessive in the amount which appears. It is essential that the material be used to support the candidate's original work and not as a substitute. Music used in the production, whether it be a primary (i.e. original student composition) or a secondary source, **must** be acknowledged on the Production submission cover sheet. A URL and screengrab of the secondary source used should be given.

15. Documentation of thinking and working practices

Records of the thinking and working practices that led to the development of a candidate's practical (production) examination submission must be kept by the school. Photocopies of all documents included with the submission, i.e. *Production submission cover sheet* as well as the *Declaration of authenticity*, must be kept by the school. The Authority may call upon the documentation to substantiate the authenticity of a candidate's submitted work. Copies of the examination submissions on USB or DVD must be kept by the school.

16. Declaration of authenticity

The completed *Declaration of authenticity* must **not** be attached to the practical (production) examination submission. The completed declaration must be placed in the folder provided for this purpose.

Every candidate is required to complete and sign a *Declaration of authenticity* and to submit it with the Media Production and Analysis practical (production) examination submission.

17. Return/collection of practical (production) examination submissions

Practical (production) examination submissions **must** be collected by metropolitan schools on **Wednesday, 13 October 2021** from **8.30 am to 4.00 pm**. Submissions not collected by metropolitan schools will be destroyed in accordance with the Department of Education's (the Department's) retention and disposal system.

Country schools' practical (production) examination submissions will be returned by the Authority.

Note: Practical (production) examination submissions received after the published time and date cannot be accepted.

18. Key dates

Appendix 5: The Practical (production) statement

Government of **Western Australia**
School Curriculum and Standards Authority

Media Production and Analysis ATAR course **Practical (production) examination 2021** **Guidelines for the *Practical (production) statement***

The *Practical (production) statement* must be completed by each candidate and submitted as a printed copy. It must be typed and not exceed one A4 page in length (single sided in 11 point Arial font). The statement provides the opportunity for candidates to communicate their intentions and highlight the application of production skills used in the creation of their production.

The following areas must be discussed within the statement:

- a rationale outlining the intent of the production, acknowledging influences, if applicable
- an explanation of how production skills were used throughout the production, including the application of the primary and secondary roles.

Candidates must ensure that their WA student number is on the page. Any hand-drawn components must be contained within the one page and be clearly legible with any screen captures or pre-production planning annotated in typed font. Candidates should write in first person, using specific examples from their production to support their understanding, explanation of production skills and knowledge of the course syllabus.

The rationale must provide a clear outline of the intent of the production, linking to the course syllabus (Media art and/or Power and persuasion). Candidates must acknowledge influences, if applicable. Influences may include professional media work, genre, style, format, social practices, cultural experiences and/or personal context.

The candidate must explain how production skills were used throughout the production, including the application of the primary and secondary roles. Candidates must refer to the primary and secondary production roles they nominated on their cover sheet and specific examples should be given to highlight the application of those roles within the production.

In audiovisual and radio productions where candidates have collaborated on a submission, reference to the other candidate's contribution may be made within the *Practical (production) statement*. The teacher must authenticate the *Practical (production) statement* prior to submission before signing the *Declaration of authenticity*.

Each individual and collaborative candidate must provide one printed copy of the *Practical (production) statement* and one copy of the *production* (with a second copy labelled 'back-up' if desired). The submission must be enclosed in an A4 clear plastic button document wallet. The *Practical (production) submission cover sheet* must be stapled to the front of the *Practical (production) statement*.
