Music Performance Resource Package

Year 11 and Year 12
Suggested technical work and repertoire

**Suggested technical work**
- Scales
- Technical repertoire

**Suggested repertoire**
- Year 11
- Year 12

**Additional resources**
- Recommended additional listening for jazz and contemporary
- Suggest texts for jazz and contemporary drum kit and voice
- Vocal stylistic differences – contexts

The suggested technical work and repertoire listed provide an indication of the standard of performance required in both Year 11 and Year 12 for each instrument across all contexts. Alternative technical work and repertoire may be selected in addition to or instead of the material provided in this package. Technical work should be selected to reflect the student’s level of instrumental development and to enhance and support repertoire being prepared by the student.
MUSIC PERFORMANCE RESOURCE PACKAGE

The following resource package may be used by schools to assist in the delivery of the practical component for the Year 11 and Year 12 ATAR Music courses. Guidelines for practical school-based assessments and examinations are outlined and additional instrumental documents provide an indication of appropriate performance standards for students in Year 11 and Year 12.

The information has been provided to the School Curriculum and Standards Authority by instrumental and vocal teachers experienced in selecting repertoire for students who may have varying skills and abilities.

School-based practical (performance) assessment

Candidates must select a performance context. The candidate may perform some repertoire in a different context, providing the majority of the repertoire is in the context selected. Practical performance tasks should be programmed through consultation between the instrumental/vocal teacher and the classroom teacher. These tasks can be assessed using at least two of the performance activities outlined in the syllabus.

Course requirements for the practical (performance) component must include:

1. Course outline – sequence and timing, assessed as stipulated in the syllabus and WACE manual.
2. Assessment outline – detailing coverage of content, assessment types, tasks, weighting and timing for each task.
3. Assessment tasks and marking keys.

A copy of the above documents must be available to both the instrumental/vocal and classroom teacher for moderation and grading purposes. It is strongly recommended that across a year level, a range of different assessment types be covered.

School-based practical (performance) examination

The school-based practical (performance) examination for Year 11 and Year 12 is a requirement of the syllabus. It is recommended that the practical (performance) examination for ATAR is conducted to reflect the requirements of the WACE recital-based external examination. Detailed information about the WACE practical examination is available in the separate document: Music ATAR Course Practical (performance and/or composition portfolio) examination requirements (available on the Music ATAR course page under Examination Materials).

It is strongly recommended that the same criteria and weightings in the current Music Practical (performance) marking key (available on the Music ATAR course page under Examination Materials) be used for school-based tasks and semester examinations. All candidates in all contexts must present a minimum of two contrasting pieces for each examination. The repertoire should contrast in tempo, genre/style and era as appropriate to context. The Semester 1 examination can include a reduced time allocation for the practical examination. Schools can include an instrumental/vocal teacher or a suitable instrumental specialist as a member of the marking panel for school-based performance examinations.
Context- and instrument-specific requirements
Requirements and advice regarding the different context and instrument options is located in the document: *Music ATAR Course Practical (performance and/or composition portfolio) examination requirements* (available on the Music ATAR course page under *Examination Materials*). The above document must be referred to by schools in conjunction with this document to plan their courses.

Practical (performance) resources:

Suggested technical work
- Technical works listed are suggestions only.
- Technical work is not examined in the WACE external examination but can be incorporated as part of the school-based assessment.
- Technical work should be selected to reflect the student’s level of instrumental development and to enhance and support repertoire being prepared by the student.

Suggested repertoire
While the pieces listed provide a wide range and scope of repertoire for prepared works, it is expected that instrumental/vocal teachers will select repertoire that meet all syllabus requirements and reflect the student’s skill and ability level.
- Pieces listed are suggestions only and provide an indication of the minimum level of performance required.
- Repertoire may be selected in addition to or instead of the typical pieces listed.
- Repertoire for Year 11 can also be drawn from the lists appropriate for Grades 4 to 6 and for Year 12 from Grade 6 onwards, as included in current performance syllabuses from accredited music examination boards available within Australia. Repertoire selected from other sources must be of an equivalent standard.
- For pieces where publishers are not stipulated, it is recommended that performers use scores that are as near to the original as possible.

Additional resources
- **Recommended additional listening** provides some suggested works for students to listen to in addition to the works they are preparing for performance.
- **Suggested texts** provide a list of useful teaching resources for some instruments and contexts.
- **Vocal stylistic differences – contexts** is a comparison of the four performance contexts for voice.

**Drum kit styles**

- **Rock:**  \( \frac{2}{4} = 70 \)
  8 bar passage of variations in common time. Patterns should incorporate 16\(^{th}\) note rhythms on snare and bass drum. (Snare drum on beats 2 and 4 throughout.)

- **Funk:**  \( \frac{2}{4} = 90 \)
  8 bar passage of variations in common time. Patterns should incorporate 16\(^{th}\) note rhythms on snare and bass drum. Strong dynamic and tonal contrast between snare drum back beats and ‘ghost notes’. (Dominant hand plays quarter notes throughout on hi-hat or ride cymbal.)

- **Jazz:**  \( \frac{2}{4} = 125 \)
  16 bar passage of variations in common time. Patterns should incorporate the conventional jazz ride cymbal rhythm, with some variations. Bass and snare drum play ‘comping’ phrases using 8\(^{th}\) note triplets. (Hi-hat foot on 2 and 4 throughout.)

CONTEMPORARY

The Contemporary repertoire listed in this document is applicable for most of the instruments listed in this resource package. Students can practise and perform the listed repertoire using either a recorded backing accompaniment, or performing as part of an ensemble. For examination purposes, Contemporary students must demonstrate an ability to solo and/or improvise appropriate to the repertoire. Demonstration of an ability to improvise is optional, as appropriate to the repertoire and the instrument, but is strongly suggested for the guitar, bass and keys. In addition, the performance must contain repertoire that demonstrates stylistic variety and versatility of technique. Note that Contemporary repertoire will need to be appropriately arranged (and in most cases, scored). Refer to the Music Practical (performance and/or composition portfolio) examination requirements document for further clarification of score requirements for all instruments.

**SUGGESTED REPERTOIRE – YEAR 11**

Contemporary drum kit repertoire covers a wide range of styles. Some styles may not be strongly represented in this list, for example Country, Latin or Django Reinhart gypsy jazz. It is recommended that a variety of styles be included in the recital, with consideration given to the need to display a variety/range of technique and appropriate skill level.

Candidates should avoid using too much of the allocated recital time with a ‘note for note’ repetition of verse/chorus accompaniment type playing. Pieces can be edited/improvised to display a variety of technique. These edits are to be indicated on the score.

SUGGESTED REPERTOIRE – YEAR 12

Contemporary guitar repertoire covers a wide range of styles. Some styles may not be strongly represented in this list, for example Country. It is recommended that a variety of styles be included in the recital, with consideration also given to the need to display a variety of technique and appropriate skill level.

Candidates should avoid using too much of the allocated recital time with a ‘note for note’ repetition of verse/chorus accompaniment type playing. Pieces can be edited/improvised to display a variety of technique, at an appropriate skill level. These changes are to be indicated on the score.

DRAMATIC ACTION

The following information provides support for teachers interpreting the Performance marking key and suitability of dramatic action for the repertoire selected.

**Drama is action.** When you are ‘in role’ – in other words, taking on a character other than your own, as you do when you are in a play or a musical – you are enacting something. You are using action and action is the basis of role.

Action – this *dramatic action* – has a range of dimensions.

- It can be **physical action**, where you use the capability of your body through *facial expression*, *posture, gesture and movement*, through space and time; for example, a song in a musical might communicate a sense of happiness and this could be shown by the way the character smiles and holds his/her body in anticipation.

- It can also be **psychological action**, where you communicate to an audience the thinking and emotional actions of the role; for example, a character might be experiencing a moment of life-changing decision as they realise their long-held belief in something is crumbling. The audience need to go on that emotional journey with the character. Psychological action is often expressed through physical actions. In the example just given, this may be shown by, say, the character moving from looking at the photo of a partner to slowly tearing up the image as the moment of realisation is recognised.

Drama is the symbolic representation of action, designed to communicate to an audience. Dramatic action is the focus of creating a role or character in drama.

**Dramatic Action.** The point of dramatic action is in how it communicates the sense of *person, place and purpose of a character* in a particular moment of *change and transformation*.

When singing a song in music theatre, there is a sense of a *character on a journey*. Through dramatic action, this journey is made evident to the audience.

Dramatic action can be subtle. It does not have to be overtly signalled (as in, say, an old-fashioned silent movie).

<tbody>
<tr>
<td><strong>Text</strong></td>
<td>Can be: narrator, character. Essential to tell the story.</td>
<td>Be the character. The character sings the song and tells the story.</td>
<td>Personal connection to the story. Individual interpretation of the text. The 'story' is essential in successful performance delivery.</td>
<td>Jazz singer has a <strong>conversation</strong> with the audience. Tell a personal story.</td>
</tr>
<tr>
<td><strong>Tone</strong></td>
<td>Vocal line is paramount and vowels used to create a stream of sound. Tone colours are 'red' and 'white' appropriate to style (or dark and light, covered and open). A north-south orientation of the mouth shape. Focus on pure correct vowels (Italian or 'RP' in English). Lift of the soft palate important</td>
<td>Tone varies according to whether legit or belt. Legit sound is more vowel-dominated and light – similar to WAM (but further forward in placement and brighter). Belt is darker and more spoken-voice (speech level) quality. Belt is an east-west orientation of the mouth – generally no scooping. Tone is used for effect. NB: ‘Legit’ – classical technique.</td>
<td>Wide range of tone colour is appropriate but very important to understand the style e.g. the difference between soul and rock, pop and country is often in the tone. Speech quality – consonant driven short vowels, articulated, twang, sob, belt. An individual and unique tone is essential. Tone reflects the character of the ‘person’ in the song.</td>
<td>The whole range of sound and colour is appropriate from growling to sweet to hard to brilliant, glottal to open onset.</td>
</tr>
<tr>
<td><strong>Diction</strong></td>
<td>Must be clear – but tone can’t be sacrificed for clarity. This may include gliding consonants and adjusting vowels to create a more beautiful line. Foreign accents must be authentic and diction appropriate.</td>
<td>It is essential that every word is clear. Diction must be clear at all times. Words bright and forward.</td>
<td>Related to style – may sing on the consonants, use American or regional accent and diction if appropriate. The words are an integral part of performance delivery, therefore crisp and articulated consonants to fully communicate the text. (Consonants may be modified for microphone technique e.g. ‘p’ becomes ‘b’). Focus is on text.</td>
<td>Words are clear, but American accent is usual. Consonants are often used expressively e.g. long ‘n’ and ‘m’ sounds. Articulated consonants.</td>

<tr>
<td>Consonants</td>
<td>Clear and crisp. All consonants must be short and not sustained (unless indicated in the music). Consonants must not compromise the vowel-to-vowel shape of the musical phrase unless explicitly marked in the music.</td>
<td>Very articulated – focus on inflections and declaratory utterances. Legit: All consonants must be articulated clearly. Belt: slight emphasis on beginning consonants in each word.</td>
<td>Lots of articulated consonants. Stylistically appropriate to the character.</td>
<td>Speech</td>
</tr>
<tr>
<td>Phrasing</td>
<td>Singer must decide which is more important – music or text phrasing? Text phrasing: breathing usually indicated by punctuation marks i.e. full-stops, commas.</td>
<td>More driven by text, but the signer must decide which is more important – music or text phrasing? Text phrasing: breathing usually indicated by punctuation marks i.e. full-stops, commas.</td>
<td>Can be used as personal ‘stamp’. Not always driven by punctuation points in the text.</td>
<td>Phrasing as for normal conversation. Text driven.</td>
</tr>
<tr>
<td>Ornaments/Inflections</td>
<td>As indicated in the music. In Baroque music – can be improvised (in rehearsal) by the singer when rehearsing for performance.</td>
<td>As indicated in the music. Some Jazz or Contemporary inflections if appropriate to repertoire.</td>
<td>Contemporary inflections as appropriate. Vibrato – used as embellishment at the ends of phrases or long held notes. Rock generally uses straight tone. Belt – consonant driven Vocal licks Ad lib Improvisation</td>
<td>Jazz inflections as appropriate</td>
</tr>
<tr>
<td>Improvisation</td>
<td>None. Must sing all notes on the page. May be rubato only where indicated. Some improvisation/ornamentation appropriate in Baroque works, such as da capo aria. Some rubato implied in certain genres e.g. French Impressionist music (Fauré, Debussy)</td>
<td>None. Must sing all notes on the page. May be rubato where indicated (usually marked on score). Some Jazz or Contemporary inflections if appropriate to repertoire (Contemporary Music Theatre).</td>
<td>Contemporary vocalists have complete freedom to express and develop own unique style and interpretation. Ad lib and improvisational elements are often incorporated.</td>
<td>An expectation. Improvisation must be original and not a transcription.</td>
</tr>
<tr>
<td>Dramatic action/performance</td>
<td>Tell the story through the face and voice – no dramatic action.</td>
<td>Essential. Be the character in the context of the song. May (but not necessarily) involve some physicalisation (gesture, moving within the performance space etc.)</td>
<td>Movement appropriate to style and personal connection to the song.</td>
<td>No movement/choreography related to telling the story. Personal telling of a story – as a conversation.</td>
</tr>
<tr>
<td>Accompaniment</td>
